

Alternative Careers in Science and Engineering Seminar Series

- While university career tools and advice abound for undergraduate and master's students, there are limited resources available specifically for PhD students.
- We are a student-run organization whose mission is to educate you as PhD students about career options and give you first-hand information about career paths that you may be interested in.
- PhD students come from many different backgrounds, and with very transferable skills they are hired in a wide variety of industries.
- We are funded by the USC Graduate and Professional Student Senate (GPSS).

PAST SEMINARS INCLUDE:

- ✦ CONSULTING CAREERS
- ✦ PHARMACEUTICAL INDUSTRY CAREERS
- ✦ ADMINISTRATIVE CAREERS
- ✦ POST-DOCTORAL EDUCATION

Faculty Advisor:
Professor Jason Kutch
(Division of Biokinesiology
and Physical Therapy)

Board members:

Josh Inouye, President (Biomedical Engineering)
Helder Felipe, Vice President (Neuroscience)
Laura Loyola, Treasurer (Integrative & Evolutionary Biology)
Elizabeth Yu, Board Member (Marine Biology & Biological Oceanography)
